3. HAZARD IDENTIFICATION

ROUTES OF EXPOSURE:

Skin	Yes
Ingestion	Yes
Inhalation	Yes

ACUTE EFFECTS: Harmful if inhaled or swallowed. Chemical permeator causing eye and skin irritation. Material is irritating to mucous membranes and upper respiratory tract and can result in dizziness and headache. Ingestion may cause gastrointestinal irritation with nausea, vomiting and diarrhea with potential liver and kidney damage.

4. FIRST AID

EYE CONTACT: Check for and remove any contact lenses. Flush eyes with water for 15 min., holding eyelids open. Obtain medical attention.

SKIN CONTACT: Flush skin with soap and water for 15 min. Remove contaminated clothing and thoroughly wash before reuse. Cover the irritated skin with an emollient.

INHALATION: Remove from exposure to fresh air immediately. If not breathing, give artificial respiration. Obtain medical attention.

INGESTION: If swallowed, wash mouth out if person is conscious. Do not induce vomiting unless directed so by medical personnel. Obtain medical attention. Loosen tight clothing such as a collar, tie belt or waistband.

5. FIRE FIGHTING MEASURES

EXTINGUISHING MEDIA: May be combustible at high temperatures. Extinguishing media appropriate to surrounding fire conditions. Small Fire: Use dry chemical powder. Large Fire: Use water spray, fog or foam. Do not use water jet. Emits toxic fumes under fire conditions (chloride, bromide).

SPECIAL FIRE FIGHTING PROCEDURES: Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes.

6. ACCIDENTAL RELEASE MEASURES

PERSONAL PROTECTIVE EQUIPMENT FOR SPILL CONDITIONS: Note that accidental releases may be subject to special reporting requirements and other regulatory mandates. Check and comply with local laws and regulations. Use gloves and other appropriate protective covering to avoid skin contact. Ensure adequate ventilation. Use goggles, face shield or other eye protection. Contain spill with an inert adsorbent such as vermiculite, sand or earth. Place spill material in a suitable container and hold for disposal. Avoid breathing vapor, mist or gas.

7. HANDLING AND STORAGE

Store in a cool, dry place in sealed containers. Ensure good ventilation at the workplace. Practice good laboratory techniques when handling this substance. After using the chemical, wash hands thoroughly. Use adequate ventilation and avoid breathing vapor, mist or gas. Empty containers pose a fire risk and any residue should be evaporated under a fume hood. Keep away from incompatibles such as oxidizing agents, metals and alkalis.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

For routine operations wear safety glasses, latex gloves and a chemical apron to avoid contact with eyes, skin and clothing. Facilities utilizing this chemical should be equipped with an eyewash station and safety shower. Use adequate ventilation to keep airborne concentrations below the permissible exposure limits. (No PELs are listed for this chemical).
